As the first wall assembly using only spray foam to meet CAN/ULC S134 conditions of acceptance, HP+ CFR assembly with WALLTITE® offers options beyond the prescriptive masonry or concrete (of at least 25 mm) claddings for non-combustible construction. BASF Canada has an Intertek listing for HP+ CFR that meets the conditions of acceptance for CAN/ULC S134 for other noncombustible claddings and may be used in all provinces and territories in Canada.

HP+™ Wall System is a registered trademark of BASF Corporation.  
WALLTITE® is a registered trademark of BASF Canada Inc
