

ENERTITE® G

Open-cell spray foam insulation

ULC ER41037- 05

ENERTITE® G is a low-density open-cell SPF insulation, formulated to meet GREENGUARD Gold standards. This certification provides stricter criteria including safety for sensitive individuals (such as children and the elderly) and ensures the product is acceptable for use in school and healthcare facilities.

Installation and Performance Benefits:

- Ease of setup and processing
 - No need for mixing or agitation on the resin-side
- Wide processing window
 - No need for recirculation of any kind
- Easy removal from studs
- Fast reaction, does not drip from overhead
- Easy sprayability
 - Easy to achieve uniformity and target thicknesses

Applications:

- Residential - single and multi-family units
- Institutional - Schools, Hospitals
- Commercial - Office Buildings

Product Qualifications:

- GREENGUARD Gold certification
 - Low-VOC
- Higher coverage rates possible – 17K to 20K bd. ft²
